06/30/2016		General Motors	Manufacturer Safety recall issued NHTSA# 16V507 Recall #2036110 PASSENGER SEAT OCCUPANT SENSING Status: Remedy Available  Locate an authorized <a href="#">General Motors dealer</a> to obtain more information about this recall.  - <a href="#">Learn more about this recall</a>

**Description:** General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2009 2010 Chevrolet Impala vehicles. The front passenger seat frame in these vehicles may rub against and damage the wires of the passenger presence sensor (PPS) module, which could cause the PPS system to fail to recognize that the passenger seat is occupied and improperly suppress the front passenger airbag. In addition, the cluster gauges and driver information center (DIC) alerts may intermittently turn off or not function properly. In rare circumstances, the damage to the PPS module could cause the airbag fuse to short, resulting in the loss of all airbags and seat belt pretensioners.

Damage and chafing to the wires of the PPS module could prevent the front passenger airbag from deploying in the event of a crash, which could increase the risk of injury to front passengers. If the wire damage to the PPS module is severe enough to short the airbag fuse, it could cause the loss of power to the sensing diagnostic module, which would result in the loss of all airbags and seat belt pretensioners and could increase the risk of injury to vehicle occupants in the event of a crash.

**Remedy:** All vehicles will have double wrap class F anti-abrasion tape with 50% overlap added to the wires in the PPS wire harness. For vehicles with wires that are chaffed, dealers will replace the wire if necessary and add anti-abrasion tape to protect it from further wear.

### Owner 3

Purchased: 2017

## Glossary

[View Full Glossary](#)

### Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 7/25/19 at 5:38:45 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Lease

When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

**New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Rental**

Vehicle was registered by a rental agency.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
