Nissan North America Inc.

**Manufacturer Service Campaign issued**

- Campaign #PC490
- ALT RGE CVT P0776 NTB16-121
- Status: Remedy Available

Locate an authorized [Nissan dealer](#) near you to obtain more information about this campaign

- [Learn more about this campaign](#)

Description: Under specific driving conditions, hydraulic pressure may decrease and result in belt slip within the CVT. This may result in MIL illumination. Continuing to drive the vehicle in this condition can lead to accelerated wear and damage to the CVT. Nissan is proactively reprogramming the Transmission Control Module (TCM) with updated CVT software to prevent decreased hydraulic pressure and belt slip from occurring. This is not a safety issue, and the vehicle still meets and/or exceeds all applicable safety standards.

Failure to have this reprogramming performed in a timely manner could result in future damage to your vehicle's transmission. If repair or replacement of the transmission becomes necessary outside of the powertrain warranty period, the resulting repair costs will be at the owner's expense.

Remedy: To assure your continued satisfaction and confidence in your vehicle, and prevent possible future damage to the CVT, your Nissan dealer will reprogram the Transmission Control Module (TCM) at no charge to you for parts or labor. The service should take less than one (1) hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

## Glossary

### Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 2/11/20 at 9:41:34 AM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds approximately 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

### Total Loss Vehicle

An insurance or fleet company declares a vehicle a total loss when a claim exceeds approximately 75% of its pre-damage value or if the vehicle is stolen and not recovered. This damage threshold varies by company. These companies typically take possession and obtain the title. Not all total loss vehicles result in a DMV-reported branded title. This may occur when an insurance company's definition of a total loss is different than the state DMV's definition for a branded title or when the owner of the vehicle is a self-insured company, like a fleet or rental company.
