04/25/2019		Mazda Motor of America, Inc.	Manufacturer Safety recall issued - NHTSA #19V-323 - Recall #2818I - MAZDA6 FRONT CROSS MEMBER CORR - Status: Remedy Available

Locate an authorized Mazda dealer near you to schedule an appointment

- [Learn more about this recall](#)

Description: On certain subject vehicles operated in the salt belt states, it is possible that the cross member may be corroded due to suspect insufficient paint coating. Corrosion may be more severe on the portion just under the air conditioner drain causing a perforation.

Continued use of the vehicle with such condition may allow the perforation to progress, and the support of the right lower control arm front bushing to decrease. This may result in a change of the right front wheel alignment. The driver may experience a heavy pull to the right, and in some cases, it is possible that the steering control may become difficult.

Remedy: The purpose of this recall is to inspect the front cross member and install a side member (for reinforcement), replace the A/C drain hose, and apply rust proofing wax to the cross member. In severe cases the front cross member will be replaced along with the A/C drain hose instead of the side member.

Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 8/27/20 at 2:59:25 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Lease

When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rental

Vehicle was registered by a rental agency.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
